BYE-LAW No. 16.

A Bye-Law of the Town of Taber, to raise the sum of \$55,000 for the purpose of the erection and construction of a Stand Pipe, the construction of Water Mains and Hydrants, and to issue debentures for the said sum of \$55,000, and to provide for the assessment and collection of the sum necessary to retire the said debentures.

WHEREAS it is deemed advisable to erect and construct, within the town of Taber, a Stand Pipe and to construct Water Mains and Hydrants.

AND WHEREAS it is deemed advisable to raise by way of loan on the credit of the Town of Taber the said sum of \$55,000, which sum shall be secured by the issue of debentures, spread over the period of twenty years, from the date of this Bye-Law taking effect, bearing interest at the rate of 5% annually.

AND WHEREAS the amount of assessable property in the town, according to the last revised Assessment Roll, is \$629,645.

AND WHEREAS there is no existing debt of the town except debts due for current expenses.

NOW THEREFORE the Mayor and Council of the Town of Taber enact as follows:—

1. This Bye-Law shall take effect on the 7th day of September, 1909.

2. The Mayor and Council of the Town may borrow on the credit of the Town the sum of \$55,000, and may issue debentures of Town to that amount in sums of not less than \$100 each, so that the number issued shall not in all exceed \$55,000 repayable within twenty years, from the date on which this Bye-Law takes effect, with interest at the rate of 5% per annum, payable annually, in such manner that each instalment of principal and interest shall be as nearly as possible equal in each year of the period during which the debentures are to run. During the twenty years next succeeding the date of this Bye-Law coming into effect, an annual rate shall be charged and levied on all rateable property in the Town of Taber, by special rate or otherwise; a sum sufficient to produce the amount annually required for the purpose of payment of principal and interest on the above debentures, letted and collected by statute or by Bye-Laws of the town.

3. That the said debentures shall be sealed with the seal of the town of Taber, and signed by the Mayor and Secretary-Treasurer and be payable in Canadian Currency at the Eastern Townships Bank at Taber.

4. The votes of the ratepayers, for or against this Bye-Law shall be taken at the Council Chamber in the Town of Taber on the 3rd day of September, 1909, between the hours of 9 o'clock in the forenoon, and 5 o'clock in the afternoon.

5. The Secretary-Treasurer shall on Friday, the 3rd day of September, 1909, at 5 o'clock p.m., sum up the number of votes, for or against the Bye-Law, and declare the result thereof.

Passed and passed in Council this day of A.D. 1909.

W. W. DOUGLAS, Mayor.

Geo. C. MILLAR, Sec'y-Treas.

NOTICE is hereby given that the above is a true copy of the proposed Bye-Law which has been introduced, and which may be finally passed by the Council (in the event of the consent of the ratepayers being obtained thereat) and that the votes of the ratepayers will be taken on the proposed Bye-Law on the 3rd day of September, 1909, between nine a.m. and five p.m. at the Council Chamber in the Town of Taber.

Geo. C. MILLAR, Sec'y-Treas.

DISEASE AND PAIN.

The Theory That Suffering is Mental More Than Physical.

A great deal of alleged physical suffering is primarily mental. A great many people have "fixed ideas" of disease, pain, debility, fatigue, dread, inefficiency and inexpressible woes. Much often than we realize these can be transplanted without surgery or medication. I do not mean that they are not real sufferings. They are as real as the grave, but they are not grounded in physical infirmity, and they are not to be cured with physics. The mind becomes possessed of a conviction that a certain part of the body is injured and imparts pain to that part in spite of all the medicine in the world. Hundreds of people refuse to get well after the physician has cured them. It is not his fault, and it is not their fault. But they have simply had disease suggested to them until they cannot think at all except upon that assumption. It is an "auto suggestion." The value of a "fixed idea" of health, as being only the removal of a fixed idea of disease where there was no organic reason for it, will hardly be disputed. Yet one cannot overemphasize the multitudinous that there are of these invalids sitting in padded chairs and making ready for the surgeon whose trouble is primarily mental, and how many there are, again, who have a slight organic infirmity and have increased its effects a thousandfold by what we may call "household suggestion."—Max Eastman in Atlantic Monthly.

AN INSECT TRAGEDY.

The Nest the Mother Butterfly Builds For Her Young.

There is something really pathetic in the way a mother butterfly builds a nest for her children. In the first place, the little house where the eggs are deposited represents a great deal of sacrifice, for it is filled with several layers of down plucked from the mother's own soft body. The eggs having been laid carefully upon this luxurious nest, they are protected by an equally pretty coverlet made of the same material.

These butterfly bedclothes are often arranged with an intricacy that is quite curious and perplexing. Sometimes a bed is made so that each separate delicate hair stands upright, thus giving the entire nest the appearance of a little branch of downy fur. Then again the eggs are laid spirally round a tiny branch, and, as the covering follows their course, the effect resembles the bushy tail of a fox, only the nest is more beautiful than the brush of the finest fur that ever roamed over country.

The building of this downy nest is the latest earthly labor of the mother butterfly, for by the time it is completed her own delicate body is denuded of its autumn covering, and there is nothing left for her to do but die a sacrifice which she promptly and heroically makes in the interest of the coming butterfly generation.

Must Pension Themselves.

Domestic servants in Germany can under the law, the obliges all persons below a certain income to provide for their old age. The postoffice issues cards and stamps, and one of these stamps must be dated and affixed to the card every Monday. Sometimes the employers buy the cards and stamps and show them at the postoffice each month. Sometimes they expect the servant to pay half the money required. Women who go out by the day get their stamps at the house they work in on Mondays. If a girl marries she may cease to insure and may have a sum of money toward her outfit. In that case she will receive no old age pension. But if she goes on with her insurance she will have from 15 to 20 marks (\$3 to \$4) a month from the state after the age of seventy.

Working His Patient.

Ambassador Wu Ting Fang was once, it is alleged, telling about a certain selfish politician. He said: "The man reminds me of a doctor of Shanghai. A mandarin came to this doctor for advice. He could not sleep, had no appetite, suffered a good deal from depression and nervousness, was taking on fat at an alarming rate. 'We'll soon put you in condition again,' said the physician. 'What you need is exercise—good, hard exercise. Four times a week you can come here and put in the morning polishing my floors.' But why not my own floors?" the mandarin inquired. "Mine," said the physician, "are larger."

A Rabbit and a Whistle.

Did you know that a short, sharp whistle from the mouth would stop a rabbit? It surely does. Next time you see little Molly Cottontail leap from her burrow and make off don't shoot; just whistle. Whether from fear or curiosity I cannot tell, but she will stop still by her tracks. An anecdote has been known to do likewise. An African hunter once said that the elephant is the most timid of all animals and can be frightened into a cold sweat by a mysterious noise.

Church Services.

St. Theodore's Church.—Morning Prayer, 11 a.m.; Sunday School, 3 p.m.; Evening Prayer, 7:30 p.m.; Holy Communion, 11 a.m. first Sunday in each month and 8:30 a.m. on third Sunday in the month.

Church of Jesus Christ of Latter Day Saints.—Sunday school at 10 a.m. every Sunday. Sacrament meeting at 2 p.m. Sunday evening service at 8 p.m.—Young Ladies' Mutual Improvement Association, every Tuesday at 7:30 p.m. Primary Association every Saturday at 3 p.m.

Knox Church.—Morning Service, 11 a.m.; Bible Class and Sunday School, 2:30 p.m.; Evening Service, 7:30; Wednesday C.E. Prayer Meeting, 8 p.m.

For Campers.

DON'TS THAT MAY SAVE MANY THOUSAND DOLLARS.

1. Don't, when in the woods, throw down a lighted match, cigar stub, or other flaming object; make sure that the flame has been thoroughly extinguished before throwing it away.

2. Don't build your campfire larger than is necessary.

3. Don't, under any circumstances, leave your fire unguarded, even for a comparatively short time, so that it is dead out before you go away.

4. Don't build your fire in leaves, rotten wood or other inflammable material.

5. Don't build your fire against a large or hollow log, where it is hard to be sure when it has been entirely put out.

To these don'ts it may be added that in windy weather, or in a dangerous place, it is well to confine the fire in a hole dug clean down to the mineral soil. A fire may smoulder in the humus, or "duff" for days, only waiting for a strong breeze to fan it into a flame that may burn over miles of timber.

Summer tourists and campers unfortunately have a bad reputation among owners of timber as being often a cause of fires. Such fires could be prevented, almost without exception, by a little extra care on the part of the campers, who have been the unintentional cause of much forest destruction, and who have just as real an interest in the preservation of the forests as the owners of the timber themselves. The rules given above are the result of long experience and observation on the part of many woodsmen and lumbermen as to the origin of fires from this cause, and are earnestly recommended to the attention of campers, sportsmen and others.

The August Home Journal.

Thirty-two pages of select reading, including new fashions, short stories, and beautiful illustrations, make the August issue of The Home Journal the best ever published, of that progressive woman's magazine.

Special articles and illustrations on "The Pure Milk Campaign" tell about the splendid work being done in the vicinity of Toronto. "Ragatta Day in St. John's Nfld." is a graphic description of one of the greatest celebrations of that ancient colony. It is written by Lady Gay and is in her best style.

The second big instalment of the serial, "The Mystery of Barry Ingram," will doubtless be read with interest by those having read the opening chapters of this absorbing mystery story in the July issue.

Other interesting articles are "Wild Flowers of August," "East is East and West is West" by Agnes Norton, "Cabbages and Kings," and "But That's Another Story." This special issue is out on August 25th.

The Bye-Law.

We direct the attention of our
readers to the proposed Bye-Law,
copy of which is published on the
front page of this issue. The ques-
tion of waterworks is a very live
issue in Taber at the present
moment, and it behooves every tax-
payer in the town to give the matter
earnest consideration from the standpoint
of the benefit to be derived by
the town in general from the instal-
lation of a waterworks system here.

In next week's issue, an article
will appear dealing with the situation
thoroughly, and fully setting out the
Council's views and reasons in re-
gard to this very important matter.

A prairie fire was burning in the
vicinity of the CY ranch on Wed-
nesday night.

Contractor Williams has success-
fully placed the Royal Hotel on its
new location. Miss Host Holson
is having the front of the building
further improved by the addition of
a wide sidewalk, and wide steps
leading up to the entrance.

Mr. H. W. Madill, organizer for
the Canadian Order of Chosen
Friends, is spending a few days in
town for the purpose of forming a
branch of that society here.

Mr. Glenwright, of Calgary, the
western representative of the Pru-
dential Life Insurance Co. of Win-
nipeg, spent several days in town
last week, in the interests of his
company.

At the weekly shoot of the Gun
Club on Friday evening last, the
scoring was as follows:

	Hit.
R. W. Abbott	11
W. W. Douglas	10
Stokes	6
B. W. Wright	4
G. F. Stanley	3
J. F. Douglas	3
P. Hammer	1

Mr. A. Willner, of 12-18-34,
brought into town last Saturday,
fine splendid samples of grain
grown on his farm. One sample of
spring wheat, sown last March,
stood 58 inches high, with well-filled
plump heads. Two samples of flax,
standing about 36 and 40 inches
respectively, were remarkably well-
grown specimens, and Mr. Willner
informed the News that both sam-
ples were second growth from
seed sown on last spring's breaking.
Mr. Bert Rutton now has them on
exhibition in his feed store, south of
the track.

The Circus certainly was the
means of inducing a large number of
people from the surrounding districts
to come into Taber for the day.

The performance was fully up to
the standard, and it may be said
that, without exception, the dresses
worn, both in the parade and during
the turns were beautifully clean and
neat, and, in many instances, very
pretty.

Say! Did you buy a ring? And
which did you take, the watch or
the money? Hope you got your
change correct.

How many ding-busted shows did
a fellow pay to see, anyway? "All
the varied attractions in the one tent
for one price." Seemed as though
people were being called upon to dig
up quarters about every fifteen
minutes.

Well, after all, it was worth all
the splutter and fuss, if only for the
enjoyment the youngsters derived
from "seeing the Circus."

Read the Bye-Law on the front
page of this issue. We expect you
to do so.
